SUMMARY

Software Engineer and MERN Full Stack Developer (B.Tech CSE, 9 CGPA, 2027) with production experience building and shipping scalable web and mobile applications end-to-end. Proficient in JavaScript, Python, Node.js, React.js, Next.js, MongoDB, REST API design, and Generative AI integration. Experienced in system architecture, debugging, and deployment. MSME-recognized startup idea founder, Data Structures & Algorithms; beginner German (A2).

EXPERIENCE

AI App Developer Intern · [Emerald AI](#)

Jan 2026 – Apr 2026

- Engineered Eden AI: Ed-tech platform (React.js + Node.js) with Gemini API integration, PostgreSQL caching layer reducing LLM API overhead ~60%, and structured JSON output validation for production-grade AI stability.
- Designed and consumed RESTful APIs; resolved SSR/hydration mismatches, cross-platform localStorage incompatibilities, and authentication state bugs across web and mobile full stack.

PROJECTS

KalaConnect — Full Stack Marketplace [↗ Live](#)

React.js, Next.js, MongoDB, Gemini API

- Developed a full-stack Social E-Commerce marketplace for artisans and buyers with product management, search, recommendations, and AI-powered content generation, Role Based Access.
- Implemented REST APIs, MongoDB data modeling, **JWT** authentication, **CRUD** operations, and **Next.js server-side rendering**.

Nexora — AI-Powered Project Management SaaS [↗ Live](#)

React.js, Node.js, Express.js, MongoDB, Agora AI, Redis,

- Developed a project management platform with Kanban boards, task management, team collaboration, notifications, and project analytics.
- Integrated Agora AI for real-time AI voice conversations and deployed the frontend on Vercel and backend on Render using RESTful APIs.

Prithv-E — Smart Waste Management Bin [↗ Live Pitch](#)

Python, IoT, Computer Vision

- Developed an AI-based waste classification pipeline using sensors and image processing for automated waste segregation.
- Secured ₹15 lakh MSME Grant and achieved Top 20 selection among 1,200 startup ideas at the ThinkQbator startup stage.**
